EDUCATION

B.Tech – Computer Science and Engineering (Artificial Intelligence)

Sep 2022 – June 2026

Noida Institute of Engineering and Technology

Greater Noida, Uttar Pradesh

TECHNICAL SKILLS

- Java - OOPs - Spring Boot - Hibernate - Python - NLP - Machine Learning
- DSA(C++) - Html - CSS - JavaScript - Linux - Git & Github

EXPERIENCE

Full Stack Java Developer Trainee [↗](#)

Dec 2024 – Present

NTT Data (1-Year Program):

- Selected among **top 50 students** out of **1200+** for elite full stack Java development training program.
- Constructed five full-stack web applications utilizing Java, Spring Boot, and RESTful APIs, showcasing practical expertise and reducing application loading times by 15% through optimized database queries.
- Built scalable web applications using MVC architecture and RESTful APIs, resulting in a 20% decrease in response times.

Machine Learning Engineer Intern [↗](#)

Feb 2025 – May 2025

Jurniq Carrer Guidance (45k Stipend Based):

- Created a personalized learning path recommendation system, improving user engagement by 30% through collaborative filtering and clustering techniques.
- Collected and processed learner data via Google Forms, reducing data preparation time by 25% and optimizing ML model accuracy.
- Enhanced recommendation system accuracy by 15% by integrating real-time learner feedback and refining AI output.

PROJECTS

E-Commerce Web Application (Spring Boot, MySQL, HTML/CSS): [↗](#)

- Developed a RESTful Spring Boot API featuring full CRUD operations for managing product data utilizing a MySQL database, facilitating a 40% faster data retrieval rate for product searches.
- Composed and styled interactive product listings with customer reviews, and integrated a fully functional search bar, leading to 200+ daily active users and a 10% click-through rate.

AI-Powered Multilingual Messenger: [↗](#)

- Crafted an AI-powered multilingual messaging platform using Spring Boot, Hibernate, HTML CSS3, JavaScript, Bootstrap, and MySQL, enabling real-time communication with responsive UI and robust backend integration.
- Integrated NLP and Machine Learning with Google Translate API, Whisper AI, and RESTful services to enable auto language detection, live translation, and speech-to-text conversion, supporting future expansion to voice and video features via WebRTC.

Smart Loan Approval System (Spring Boot, Hibernate, ML, HTML/CSS): [↗](#)

- Engineered a full-stack Smart Loan Approval System using Spring Boot, Hibernate, HTML/CSS, and MySQL, featuring secure user authentication and real-time input validation to enhance usability and accuracy.
- Integrated a Machine Learning model (Python) to automate loan eligibility predictions with over 90% accuracy, reducing manual review time and improving decision-making efficiency.

CERTIFICATIONS

- Machine Learning Specialization – Udemy (2024) [↗](#)
- Python Essential 1– CISCO (2025) [↗](#)
- Python Essential 2 – CISCO (2025) [↗](#)
- Artificial Intelligence and Machine Learning with Java – Oracle (2025) [↗](#)

Achievement

- E-litmus PH Test Score – 93.17 percentile. [↗](#)
